

Continuing Education Contact Hours

CONTINUING EDUCATION CONTACT HOURS WILL BE REQUIRED TO RENEW YOUR CERTIFICATE IF IT EXPIRES AFTER DECEMBER 31, 2003

Continuing education contact hours must be obtained between renewal periods and prior to the submittal of the renewal application. **This applies only to certificates that expire after December 31, 2003.** Because the renewal is due 120 days, (four months), prior to the certificate expiration date, it is necessary to complete the contact hours at least four months prior to the expiration of the certificate in order to avoid late fees. If your current certificate expires on or before December 31, 2003, continuing education is not required to renew your certificate.

The following number of contact hours of continuing education will be required for renewal:

Grade T1 and D1 = **12** hours

Grade T2 and D2 = **16** hours

Grade T3 and D3 = **24** hours

Grade T4 and D4 = **36** hours

Grade T5 and D5 = **36** hours

The following is a list of continuing education providers that offer Continuing Education contact hours. This list only represents the providers of which we are aware and is not comprehensive. Other continuing education courses are available. Contact the training provider to confirm class times, locations, costs, and contact hours awarded. ***Be aware that these providers offer a variety of courses and not all courses are acceptable for continuing education contact hours for Drinking Water Treatment or Distribution!*** Subject matter related to drinking water treatment, distribution, or safety is acceptable. Classes approved as “Specialized Training” would also be acceptable as contact hour classes. (See “Specialized Training Providers” on home page.) Please review the CE Guidance document for more information.
